- Hadrian Park were above the Local Authority figures for the percentage of SEN (special Educational Needs) children achieving the expected standard in the Phonics Test

SATs Introduction - SATs (Standard Assessment Tests) tests are given at the end of Year 2, Year 6 and Year 9. They are used to show your child's progress compared with other children born in the same month.

The mean (average) score for each age group on an assessment is set at 100 and the standard deviation at 15.

For any age group a given numerical value has the same meaning in terms of standing relative to the group. For example, an eight year old and a nine year old, each of whom has a standard age score of 105, have performed equally well in relation to the average for their respective age groups.

Key Stage 1 (Year 2) SATs - Pupils are assessed through internally marked tests in: Reading, and Maths. They are assessed by Teacher Assessment in Writing. Children in Year 1 will also complete a National Phonic Test. Any children who does not pass this test in Year 1 are required to be re-tested in the Summer Term of Year 2.
